Community Focus

Koch Nitrogen provides philanthropic support to many local initiatives and organizations that create lasting value in Dodge City and the surrounding areas. Recipients have included the Dodge City Chamber of Commerce; Dodge City Roundup Inc.; Dodge City Ford County Development; Youth Entrepreneurs of Kansas; and Habitat for Humanity in Greensburg.

Powerful Roots

The strength of the Koch Fertilizer network extends beyond the agriculture industry. Koch Fertilizer is an indirect, wholly-owned subsidiary of Koch Industries, Inc., one of the largest private companies in America. Koch Industries, Inc. owns a diverse group of companies involved in refining and chemicals, process and pollution control equipment and technologies, minerals, fertilizers, fibers and polymers, commodity trading and services, forest and consumer products, and ranching.

General Information

Built in 1968, the Dodge City production facility became a Koch Nitrogen Company, LLC site in 2003. The site employs approximately 55 people in the fields of engineering, operations and maintenance and handles the following products:

- Ammonia – A gaseous compound used in the production of fertilizer and for industrial purposes. Shipped by truck and rail.
- UAN – A liquid nitrogen fertilizer. Shipped by truck and rail.

Koch Nitrogen invests millions annually into the Dodge City facility to make it a more safe, reliable and rewarding place to work. A strong emphasis on customer focus and satisfying customer needs in a fluid marketplace has allowed this facility to grow and prosper.

Sustainability

Excellence in environmental, health and safety performance is essential for long-term success. Koch Nitrogen is among the best in the industry when it comes to safety performance, reducing waste and increasing process efficiency.

Koch Nitrogen has earned the Stewardship Award from Burlington Northern Santa Fe Railway Company as well as the Safety Award and Thoroughbred Chemical Safety Award from Norfolk Southern for successfully transporting hazardous materials.

Koch Nitrogen is a recipient of the Pinnacle Award from Union Pacific Railroad for safe shipping by rail.

Local Resources for a Global Network

Koch Fertilizer, LLC and its subsidiaries, including Koch Nitrogen, market and distribute more than 12 million metric tons of fertilizer products annually in Dodge City, Kansas, and around the world. The companies own or have interests in eight production plants and more than 90 terminals globally.
